Division Worksheet - Homeschool Math

1.6 Division Division of whole numbers is defined in terms of multiplication using the idea of a missing factor. Definition 6.1. Division is defined by missing factors: the number 56 is the missing factor in $56 \div 8 = 7$. By this definition $56 \div 8 = 7$ so if we divide by 8 and then multiply by 8 we get our original number back.

1.6 Division - Singapore Math

Multiplication and Division Unit 4 focuses on the most common uses of multiplication and division problems that involve equal sharing and equal grouping. In Second Grade Everyday Mathematics, children were exposed to multiplication and division number stories and multiplication and division facts.
