Abstract Syntax Notation One (ASN.1) is a standard interface description language for defining data structures that can be serialized and deserialized in a cross-platform way. It is broadly used in telecommunications and computer networking, and especially in cryptography.. Protocol developers define data structures in ASN.1 modules, which are generally a section of a broader standards ...

The Difference between Essays and Reports. A report is a piece of informative writing, while an essay writing is structured around an introduction, body, conclusion, and the essay itself.. While a report always goes to the process of identifying and evaluating the extent of issues in a report, essays focus is slightly different.
