Population ageing is an increasing median age in the population of a region due to declining fertility rates and/or rising life expectancy. Most countries have rising life expectancy and an ageing population (trends that emerged first in developed countries, but which are now seen in virtually all developing countries). This is the case for every country in the world except the 18 countries ...

Successful aging (American English) or successful ageing (British English) refers to physical, mental and social well-being in older age. The concept of successful aging can be traced back to the 1950s, and was popularized in the 1980s. It reflects changing view on aging in Western countries, where a stigma associated with old age (see ageism) has led to considering older people as a burden on ...
