

### **analysis of financial statements pdf**

Analysis of financial statements focuses primarily on data provided in external reports plus supplementary information provided by management. The analysis should identify major changes or turning points in trends, amounts, and relationships. Financial statements are merely summaries of detailed financial information.

### **Analysis and Use of Financial Statements - apexcpe.com**

Analysis of the summary information in the financial statements usually doesn't provide detailed answers to management's questions, but it does identify areas in which further data should be gathered.
