Under review as a conference paper at ICLR 2017 If  $P_r(x) > P_g(x)$ , then  $x$  is a point with higher probability of coming from the data than being a generated sample. This is the core of the phenomenon commonly described as "mode dropping": when there are large regions with high values of  $P$

Applied behavior analysis (ABA) is a scientific discipline concerned with applying techniques based upon the principles of learning to change behavior of social significance. It is the applied form of behavior analysis; the other two forms are radical behaviorism (or the philosophy of the science) and the experimental analysis of behavior (or basic experimental research).

Abstract. Aflatoxins are toxic carcinogenic secondary metabolites produced predominantly by two fungal species: *Aspergillus flavus* and *Aspergillus parasiticus*. These fungal species are contaminants of foodstuff as well as feeds and are responsible for aflatoxin contamination of these agro products.
