articles on cats in pdf

The domestic cat is a member of the cat family, the felids, which are a rapidly evolving family of mammals that share a common ancestor only 10–15 million years ago and include lions, tigers, cougars and many others. Within this family, domestic cats (*Felis catus*) are part of the genus *Felis*, which is a group of small cats containing about seven species (depending upon classification scheme).

Cats kill billions of wild animals every year and represent a serious ecological threat to our environments. They kill more native animals than any other human-related cause, such as car collisions and pesticide consumption, and are considered the greatest human-linked threat to wildlife in the US.
