One of the main projects we are in the process of tacking on the RV is a modification to the electrical system. Our Crusader 5th Wheel came with a pretty basic but standard power setup consisting of a single 12 Volt deep cycle battery and converter/charger/circuit breaker panel with 120VAC 60 Hz available in the interior only when connected to a shore power supply or when running gasoline ...

The air-breathing lungs of mammals, including humans, must be dry and empty of fluids to work properly. When we take a breath, tiny air sacs in our lungs pull oxygen out of the air and carry it to our bodies' cells. The lungs of mammals would not work very well for a fish, because one breath underwater would fill them with fluid and make them useless.
