The microprocessor does everything in the navigation system except for activities that require specialized, dedicated electronic circuitry. For a unit based on the global positioning system (GPS), there are specialized circuits to detect and time microwave signals emitted by an array of earth-orbiting satellites and specialized circuits to operate a display and a sound system, but thatâ€™s ...

Piaget's theory of cognitive development is a comprehensive theory about the nature and development of human intelligence. It was first created by the Swiss developmental psychologist Jean Piaget (1896–1980). The theory deals with the nature of knowledge itself and how humans gradually come to acquire, construct, and use it. Piaget's theory is mainly known as a developmental stage theory.
