Example Sentence. The National Center on Universal Design for Learning website was designed to be compatible with screen readers in order to increase its accessibility.

Glossary | National Center On Universal Design for Learning

Big data is data sets that are so big and complex that traditional data-processing application software are inadequate to deal with them. Big data challenges include capturing data, data storage, data analysis, search, sharing, transfer, visualization, querying, updating, information privacy and data source. There are a number of concepts associated with big data: originally there were 3 ...
