In a surprising turn, researchers find that the bacteria in our guts send signals to the kidneys and blood vessels that help to balance our vital signs.

How Bacteria Help Regulate Blood Pressure | Quanta Magazine

My mother instilled in me a love of reading, so when I discovered several of Sabatini's titles in a bookstore, I bought Captain Blood. Many years later, I did some pirate research that took me back to this novel. As I reread Captain Blood in preparation for writing this article, I realized how much I hadn't understood the first time.

Pirates & Privateers - Captain Blood: The History behind

Within hours of eating an unhealthy meal, we can get a spike in inflammation, crippling our artery function, thickening our blood, and causing a fight-or-flight nerve response. But there are foods we can eat at every meal to counter this reaction.

How to Prevent Blood Sugar & Triglyceride Spikes after Meals

Green poop is typically caused by eating too many chlorophyll-based foods or taking certain antibiotics. However, if green poop occurs for unknown reasons, it might have a more serious cause. This article also looks at a range of different poop colors and discusses when it might be a good idea to visit the doctor.

Why is my poop green? Stool colors explained - Health News
