Architect Field Report. An Architect Field Report (AFR) is a required report where the architect visits a field site and produces a report to keep the owner apprised of construction progress and the quality of work being completed. It is a record of a project's progress, job site decisions, concerns and is typically issued by the architect after each field visit.

The status of women in Pakistan is one of systemic gender subordination even though it varies considerably across classes, regions, and the rural/urban divide due to uneven socioeconomic development and the impact of tribal, feudal, and capitalist social formations on women's lives. The Pakistani women of today do, however, enjoy a better status than the past.

Lean IT is the extension of lean manufacturing and lean services principles to the development and management of information technology (IT) products and services. Its central concern, applied in the context of IT, is the elimination of waste, where waste is work that adds no value to a product or service.. Although lean principles are generally well established and have broad applicability ...

Lean IT - Wikipedia

While many of the conversations we are having with investors in the United States these days are championing the merits of more U.S.-centric strategies, this approach just does not seem to dovetail well with the way we are seeing the world from an asset allocation perspective, particularly after several back-to-back trips to Europe and Asia.
