To save a different view of a layered PDF in Acrobat Pro, you must change the default state of the layers in the Layer Properties dialog box. Edit layer properties (Acrobat Pro) You can combine the default state setting, the visibility setting, and the print setting to control when a layer is visible and when it prints.

How do I draw or insert a box around text in a pdf on Adobe Acrobat XI Standard? I can insert a text box onto the pdf and write inside the text box but also want to be able to put a box around certain items on the pdf to draw attention to them. i.e. put a box around the Invoice # on an invoice I have in pdf form.
