CASE STUDIES 7-25-00 - CNS Productions

In the social sciences and life sciences, a case study is a research method involving an up-close, in-depth, and detailed examination of a subject of study (the case), as well as its related contextual conditions.. Case studies can be produced by following a formal research method. These case studies are likely to appear in formal research venues, as journals and professional conferences ...

Case study - Wikipedia

The discovery of Interpersonal Psychotherapy is a great example of scientific serendipity, in that, it was discovered by accident. The story goes that in 1969 the U.S. National Institute of Mental Health began a new policy of evaluating mental health treatments in the same way other medical treatments are tested.

What is Interpersonal Psychotherapy (IPT): A Case History

INTRODUCTION: Countertransference, the emotional reaction of a psychotherapist toward a patient, is an important technical element of psychotherapy.

Trends in Psychiatry and Psychotherapy - SciELO
