The first CCTV system was installed by Siemens AG at Test Stand VII in Peenemünde, Nazi Germany in 1942, for observing the launch of V-2 rockets. The noted German engineer Walter Bruch was responsible for the technological design and installation of the system. [not in citation given]In the U.S. the first commercial closed-circuit television system became available in 1949, called Vericon.

A camera works with the light of the visible spectrum or with other portions of the electromagnetic spectrum. A still camera is an optical device which creates a single image of an object or scene and records it on an electronic sensor or photographic film. All cameras use the same basic design: light enters an enclosed box through a converging/convex lens and an image is recorded on a light ...

Varifocal vs Fixed Lens Security Cameras What's the difference and when would I need varifocal lenses?

Part 1 - What's the difference? A fixed lens doesn't let you adjust the focal length, angle of view, and level of zoom.
