Image by Pete Wesch, via Wikimedia Commons. Although he died when he was only 53 years old, Philip K. Dick (1928 – 1982) published 44 novels and 121 short stories during his lifetime and solidified his position as the most literary of science fiction writers. His novel *Ubik* appears on TIME magazine's list of the 100 best English-language novels, and Dick is the only science fiction writer ...

Science fiction (often shortened to Sci-Fi or SF) is a genre of speculative fiction, typically dealing with imaginative concepts such as advanced science and technology, spaceflight, time travel, and extraterrestrial life. Science fiction often explores the potential consequences of scientific and other innovations, and has been called a "literature of ideas".
