SIGCOMM is ACM's professional forum for discussing communications and computer networks. SIGCOMM members include scientists, engineers, educators and students.

Welcome | acm sigcomm

An artificial neural network is a network of simple elements called artificial neurons, which receive input, change their internal state (activation) according to that input, and produce output depending on the input and activation. The network forms by connecting the output of certain neurons to the input of other neurons forming a directed, weighted graph.

Syllabus and Course Schedule. Time and Location: Monday, Wednesday 9:30-10:50am, NVIDIA Auditorium
Class Videos: Current quarter's class videos are available here for SCPD students and here for non-SCPD students.

CS229: Machine Learning

Ross Girshick is a research scientist at Facebook AI Research (FAIR), working on computer vision and machine learning. He received a PhD in computer science from the University of Chicago under the supervision of Pedro Felzenszwalb in 2012.

When you think of leaders in the computing industry, your first thoughts probably turn to companies like Apple, Microsoft, and IBM. But flash back a few decades, and the leaders of those companies all

wouldâ€™ve gladly bowed down to Digital Equipment Corporation, or DEC, who began paving the way for everyone starting in 1957.

DEC & Digital Equipment Corporation: Where Did They Go
