Distributed temperature sensing - Wikipedia

The Oryx DTS is a compact DTS system designed for harsh environments ideal for monitoring applications from desert to sub-zero conditions. Find out more.

Oryx DTS Sensors | Distributed Temperature Sensing System

An optical fiber or optical fibre is a flexible, transparent fiber made by drawing glass or plastic to a diameter slightly thicker than that of a human hair. Optical fibers are used most often as a means to transmit light between the two ends of the fiber and find wide usage in fiber-optic communications, where they permit transmission over longer distances and at higher bandwidths (data rates ...

Optical fiber - Wikipedia

Spero Group is a South African company, constantly striving to further its corporate responsibility. The company considers it vital to contribute to raising its level of national competitiveness, assist the social and economic development of the regions in which it operates, and be a reliable partner to mining and industrial organizations in creating a stable and prosperous social environment.

Sperosens :- Fire Detection | Fire Suppression

1 Technology Center, Federal University of Esp rito Santo - Vit ria, ES - Brazil. This paper presents a theoretical and computational study on the analysis of parameters for distributed temperature sensing in optical fibers, based on spontaneous Raman scattering effect. The parameters studied ...

Analysis of Parameters for a Distributed Temperature

Structural Health Monitoring (SHM) aims to develop automated systems for the continuous monitoring, inspection, and damage detection of structures with minimum labour involvement. The first step to set up a SHM system is to incorporate a level of structural sensing capability that is reliable and possesses long term stability. Smart sensing technologies including the applications of fibre ...

Smart Sensing Technologies for Structural Health

1. Introduction. The concept of neuroglia was first proposed by Rudolf Virchow in 1858, in reference to the cellular elements that make up the connective tissue of the brain â€œnervekitâ€. The MÃ¼ller cell was described as a radial fibre in the retina by Heinrich MÃ¼ller in 1851, later becoming known as MÃ¼ller glial cells.
