

document management system project pdf

A document management system (DMS) is a system (based on computer programs in the case of the management of digital documents) used to track, manage and store documents and reduce paper. Most are capable of keeping a record of the various versions created and modified by different users (history tracking). The term has some overlap with the concepts of content management systems.

Document management system - Wikipedia

Content Central gives organizations like yours quick and easy access to your information. The all-in-one, browser-based document management system provides what matters most to you: Access, Speed, Process Automation and Security.
