An engineering drawing, a type of technical drawing, is used to fully and clearly define requirements for engineered items.. Engineering drawing (the activity) produces engineering drawings (the documents). More than merely the drawing of pictures, it is also a language—a graphical language that communicates ideas and information from one mind to another.

@SFun28 Why? The pdf() device is for plotting PDF figures. It is not a device for PDF documents. That is an important distinction, which you seem to be conflating. Your presumption that because pdf() allows for quite sophisticated control of the dimensions of the outputted PDF it is suitable for these document processing tasks is incorrect; it (adding page numbers) might be a basic scenario for ...
