Various games to practise times tables! Introduction The purpose of the games provided in this section is to practise mathematical methods for finding times tables facts. Children who don't have any difficulty memorising all 100 facts for the times tables up to 10 x 10, probably don't need extra practice.

Learning the Times Tables Ronit Bird

Let's learn Times Tables! by Rachel DeMille You can't believe how quick and easy this is. The first thing to note is that multiplication is just repeated addition. For example: three times five means adding three fives, like this: $5 + 5 + 5 = 15$. It's easy to write the same thing using multiplication: $3 \times 5 = 15$. So let's begin.

Let's Learn Times Tables! - TJED.org
