Learning From Data does exactly what it sets out to do, and quite well at that. The book focuses on the mathematical theory of learning, why it's feasible, how well one can learn in theory, etc.

Learning From Data: A Short Course by Yaser S. Abu-Mostafa

Learning from data has distinct theoretical and practical tracks. In this book, we balance the theoretical and the practical, the mathematical and the heuristic. Theory that establishes the conceptual framework for learning is included, and so are heuristics that impact the performance of real learning systems.
