

legionnaires disease deadly disease pdf

History and Disease Patterns of Legionella. Español: Historia y patrones de la enfermedad Legionellosis, which includes Legionnairesâ€™™ (LEE-juh-nares) disease and Pontiac fever, is a respiratory disease caused by a type of bacteria called Legionella.. History

Legionnaires Disease History and Patterns | Legionella | CDC

How It Spreads. After Legionella grows and multiplies in a building water system, water containing Legionella then has to spread in droplets small enough for people to breathe in. People can get Legionnairesâ€™™ disease or Pontiac fever when they breathe in small droplets of water in the air that contain the bacteria.

Legionnaires Disease Cause and Spread | Legionella | CDC

Many workers spend long periods of time indoors, in air-conditioned buildings. If the air-conditioning system is not maintained, a number of problems, some potentially lethal, can occur.

Air Conditioning & Legionnaires Disease - OHS Repts

Meningococcal disease describes infections caused by the bacterium Neisseria meningitidis (also termed meningococcus). It carries a high mortality rate if untreated but is a vaccine-preventable disease. While best known as a cause of meningitis, widespread blood infection can result in sepsis, which is a more damaging and dangerous condition. Meningitis and meningococemia are major causes of ...

Meningococcal disease - Wikipedia

Pathogenic bacteria are bacteria that can cause disease. This article deals with human pathogenic bacteria. Although most bacteria are harmless or often beneficial, some are pathogenic, with the number of species estimated as fewer than 100 that are seen to cause infectious diseases in humans. By contrast, several thousand species exist in the human digestive system.

Pathogenic bacteria - Wikipedia

National Immunization Awareness Month (NIAM) is an annual observance held in August to highlight the importance of vaccination for people of all ages. NIAM was established to encourage people of all ages to make sure they are up to date on the vaccines recommended for them.

Suffolk County Government > Departments > Health Services

Potential Hazard Dietary employees must perform many lifting, reaching, and repetitive tasks as part of their job duties. Employee activities in this area, if occurring with sufficient duration, magnitude, and/or frequency, may create a musculoskeletal disorder (MSD).
