(PDF) Check-list of Marine Fishes of Greece - ResearchGate

Overall, the new European Red List of Marine Fishes shows that 7.5% of all marine fish species are threatened. This needs to be compared to the earlier assessments carried out for the other vertebrate species groups, which show that 17% of mammals, 13% of birds, 23% of amphibians, 20% of reptiles and 40% of freshwater fishes are threatened.
