structuring phase of decision analysis, and insight can be gained in the process of iterative modeling and analysis with the goal of reaching a requisite decision model. The

## **Solution to Homework #8 T, 11-18-03**

personal problems, we are forced to make decisions that are based on incomplete knowledge. Even a deliberation of whether more information should be collected before making an actual decision is itself a decision under uncertainty. Decision making under uncertainty has been addressed in mathematics by probability theory and expected utility theory.
