The travelling salesman problem (TSP) asks the following question: "Given a list of cities and the distances between each pair of cities, what is the shortest possible route that visits each city and returns to the origin city?" It is an NP-hard problem in combinatorial optimization, important in operations research and theoretical computer science. ...

I need to work with a binary number. I tried writing: `const x = 00010000;` But it didn't work. I know that I can use a hexadecimal number that has the same value as 00010000, but I want to know if there is a type in C++ for binary numbers and if there isn't, is there another solution for my problem?

The intent of this paper is to conceptualize physical literacy in the school environment within the United States educational system. Evolution of physical literacy from both a general education and disciplinary focus is overviewed.

Contextualizing physical literacy in the school

Electrode reaction rates and most double layer parameters are extensive quantities and have to be referred to the unit area of the interface. Knowledge of the real surface area of electrodes is therefore needed. Comparison of experimental data with theories or of experimental results for different materials and/or from different laboratories to each other is physically groundless without ...

Al Gore has provided a target-rich environment of deceptions in his new movie. After viewing Gore’s most recent movie, *An Inconvenient Sequel: Truth to Power*, and after reading the book version of the movie, I was more than a little astounded. The new movie and book are chock-full of bad science, bad policy, and factual errors.

An Inconvenient Deception: How Al Gore Distorts Climate

Dr. Tapio Schneider discusses the science behind human-induced climate change. He is a climate scientist and Professor of Environmental Science and Engineering at the California Institute of Technology. Atmospheric carbon dioxide concentrations are higher today than at any time in at least the past ...

The knapsack problem or rucksack problem is a problem in combinatorial optimization: Given a set of items, each with a weight and a value, determine the number of each item to include in a collection so that the total weight is less than or equal to a given limit and the total value is as large as possible. It derives its name from the problem faced by someone who is constrained by a fixed-size ...

Francis Crick himself has become much less enthusiastic about the RNA world than Watson. In 1973, he and another eminent researcher into the origin of life, Leslie E. Orgel, published a paper advocating the theory called "Directed Panspermia". In 1981, Crick published *Life Itself*, a whole book about that theory. And by 1993 he says, "It may turn out that we will eventually be able to see how ...
